The goal of the Bible Ministries Program is to provide students with flexibility in selecting their 30 credits of Professional Division courses. The Bible and Arts & Sciences requirements are the same as the other Bachelor of Science in Bible degree programs. Since the Professional Division courses do not need to be taken from a single department, the student may choose these ten courses from any of the departments. Courses should be selected in consultation with the academic advisor since not every Professional Division course is available to the Bible Ministries student. Students need to be cautioned that while a broad approach is attractive, it does not provide an in-depth ministry preparation in any one area. The program is good for transfer students who have already taken a variety of professional electives at another higher education institution.
