How to turn on Compatibility View in Internet Explorer 10 or earlier

Having Problems Accessing LBC’s My Community? My Community can be accessed using Microsoft’s Internet Explorer browser or Google’s Chrome browser. If you prefer to use Internet Explorer, it must be configured to work with My Community. Follow the instructions below.

1. See if the Compatibility View button 🕵️ appears in the Address bar. (If you don’t see the button, there’s no need to turn on Compatibility View.)

2. Tap or click the Compatibility View button 🕵️ to display the site in Compatibility View.

3. The 🕵️ icon should now be blue 🔄

Once you turn on Compatibility View, Internet Explorer will automatically show that site in Compatibility View each time you visit. You can turn it off by tapping or clicking the button 🕵️ again.

NOTE: Deleting your browser history will also delete Compatibility View for sites as well. If you delete your browser history, please repeat this process before you try to log in again.

How to turn on Compatibility View in Internet Explorer 11

(This is the most recent version of Internet Explorer.)

1. Click on Options (gear symbol in upper right corner).

2. Click on Compatibility View Settings.
3. Type lbc.edu into the box and click Add.

4. Click Close and you should be able to access My Community.
