

**LANCASTER BIBLE COLLEGE**

### **Vaccination Policy**

Lancaster Bible College Health Services requires a meningitis vaccine or waiver and a full record of all immunizations for all full-time, undergrad, degree-seeking students by submitting a Health Record and Physical Examination Form. The latter includes the immunization record. By law in PA, all students living on a college campus must either show proof that they have received the meningitis vaccine or sign a waiver if they chose not to have it. If a student is unable to locate their immunization record or has had no immunizations, Health Services must be notified as such in writing.
